TUESDAY MORNING, SEPT 1 186

Strange Disclosures

During the California canvass, some correspondence has been made public which shows a deeply laid scheme on the part of certain leaders of the pro slavery Democracy to detach the States and Territories of the Pacific coast from the Union and to organize a separate and distinct Republic The *Marysville Appeal* publishes one of the letters from a Breckenridge editor, and addressed to the Shasta Postmaster It is dated December 25th, 1860, and in part is as follows

I received a letter to-day from John C Burch, of [illegible] It is a long letter, written for *publication* and though deploring the prospects of the union, advocates California joining with Oregon, Washingt[illegible] Territory Arizona, &c, and establishing i[illegible]dependent Government. Burch requested that I permit the San Francisco *Herald* to publish it and likewise furnish a copy for the Shasta *Herald* On handing it to Guthrie of the *Herald*, he questioned the propriety of publishing it at present, and wishes to submit it to a number of gentlemen who are *organizing* in behalf of a *Pacific Republic* This is told me in confidence, and I have agreed to meet them to-morrow at 3½ o'clock and consider matters Burch writes that all the Representatives of Oregon, Washington Territory and Arizona are in favor of the move, and that his letter embodies their views He also says that Latham had arrived and *approves* the letter This is at v[illegible]nce with a statement of the *Alta Californian* a correspondent of which says that Latham was opposed to separation, and that he had stated not more than five hundred men in California would advocate a separate government but all would abide by Union with the North The word of Burch is, however conclusive.

It seems to me that the issue is bound to come I think the plan is to shuffle along through the Administration of Buchanan without any decisive action but as soon as his term is out and Lincoln is inaugurated a grand concerted movement will be made by the South The question is whether the issues of separation should be precipitated *now* or not When it comes it will obliterate all other party lines Democrat, Republican, &c will all go by the board It seems to me that our [illegible] will come about the first of March. If California signifies in any way that she will not desire to remain with the North but go by herself, most likely all our delegation in Congress will retire and come home The delegates from Oregon (in part) and Washington Territory would do the same when the question would be forced before the Legislature of the State But it seems to me that it could do no more than submit the question in some form to the *people* to decide I presume, by appointing a day for an election of Delegates to meet on a certain day and carry out the will of the people The test would come in electing men of known views for or against separation from the North I know but little of the temper of the Legislature Possibly it might refuse under any circumstances to call such a Convention or take any steps to leave the Union Perhaps its power to do so might be questioned, though I think not One thing is certain—separation is revolution in any shape it can be put up The thing must be managed with great care To agitate it prematurely might be disadvantageous, but on the other hand the opposition press of all stripes are making capital and manufacturing opinion I candidly think that public sentiment is pretty evenly divided *now* on the question, and the action of the people will depend on events to transpire within the next three months, and the way matters are managed You would do well to feel around and ascertain the opinions of the leading men in Shasta county I will keep you posted as far as I am able of events and purposes here, and advise you to *caution and secrecy*

O R STREET

These developments have caused much excitement in California, and will doubtless induce many Democrats to pause before they bestow positions of responsibility upon those who are suspected of having been parties to the conspiracy now exposed

For a long time it has been known that such a movement was discussed, but very few believed that serious measures were taken to secure its accomplishment, or that the Pacific Congressional delegation had agreed either to retire from its position at Washington, or to become parties to the revolutionary plot We should be glad to know what authority John C Burch had for saying that the Oregon and Washington members were in favor of the move, or coincided with him in views and purposes. If Burch told the truth the people will not soon or easily forget those who sought to betray them, while if his statement is false, he wickedly assailed and falsified the reputation of the dead as well as of the living, for at that time Col Baker and Gen Stevens who have since sacrificed their lives in defense of the whole country were in Congress as well as Gen Lane and Judge Stout, who can best say whether Burch could truthfully in regard to them or their colleagues, make the declaration which amounts to little else than a charge of treason

Letter from Auburn.

FROM OUR OWN CORRESPONDENT

AUBURN August 2[illegible] 1863

I see by the OREGONIAN that Maj Bledsoe is dead, killed in an affray at Boise The OREGONIAN is mistaken, however as Bledsoe was alive at last dates and doing as well as could be expected But the OREGONIAN must not despair for the opinion seems to prevail that he will never leave the Boise Basin alive There is a retribution hanging over the man and he is as well aware of it as anybody — Last summer, I think it was he killed a man at Florence, with very little provocation deliberately walking up and shooting him down. After that he came to Auburn, and left our mining fortunes for the more prosperous regions of Boise All the roughs desert[illegible] us, and we have lived very peaceable lives in consequence

There are two varieties of roughs One that drink gamble and are on the shoulder for the most [illegible] in case they are driven to it but who are not [illegible] agents nevertheless Then there is [illegible] miscreant who is ready to [illegible] and stab upon favorable occasions Bledsoe is a dangerous man outlawed by past desperate deeds, and made reckless as to future ones But from personal acquaintance I am not inclined to class him among the worst I have described The world will go on in peace and be the better for his exit and the times east of us are becoming more peaceable by the lessening number of desperadoes in its midst If there is any merit in the tallest courage and fearlessness in being so desperate and determined that the most desperate are awed then Mayfield was entitled to at least some renown above the rest of his fellows

Since the murder of the sheriff at Washoe Mayfield has been to all intents an outcast wandering up in the outskirts of the Pacific world, known and feared by even the worst of his associates and hunted himself by continued fear of the outraged law His whole life was a dread and a suspicion of arrest and his ruling passion seemed to be to wreak vengeance on all those who had ever assisted in any execution of lynch law — Mayfield was after all immeasurably above the common class of ruffians He owned claims in Boise that were and are very valuable, worked them industriously himself and was a good practical miner No one I believe ever suspected him of any operations on the road With peaceable men he was peaceable Some ten days ago he was involved in some dispute in a gambling house at Bannock, some difficulty with a gambler he was "bucking" against at monte named Evans from Los Angeles I think and the end of it was that Mayfield was shot with a rifle through the heart, when afterwards walking down the street between two others Evans was in fear of him and lifting up the window of his house shot him after he had passed by A very cowardly operation in itself but Evans dared not attack him in such a manner as to give him any show for self defense

It is astonishing how easily the world is reconciled to these events in fact how it rather relishes them as they transpire And it is also astonishing that more than half of these gentry I am treating of are decidedly secesh, and nine tenths of the remainder despite the general toneness of their natures, are the most pacificated kind of peace democrats, and I take this opportunity to congratulate our copperhead friends upon the fact But let me do justice to some even among the gamblers, who are firm, fast Union men, and that throws—to my mind—a mantle of charity over a multitude of sins Evans gave himself up for trial, and the examination was commenced the same evening, but the next morning Mr Evans was found among the missing

Times are beginning to be very dull at Boise Overdone is the word applicable to all kinds of trade, and goods will not readily realize costs and charges Here—well—Auburn is no *duller* than it was

During the past week nitric acid has been in demand, and retorts and crucibles in general use to test our silver ore One gentleman of my acquaintance has accumulated a vial full of chloride of silver (?) already, the result of his experiments, and everybody that could hire or borrow or own a horse or mule has rode out to the lead to put up a notice for himself and friends. This discovery was made by the Pine Creek Ditch in winding its way along a steep mountain side, about nine miles from town, and I must say there has been some very pretty ore taken out, whether there is silver in it or not The Auburn Canal Co are running a drift into the mountain to prospect the lead, and we have the satisfaction to know that should it prospect well, they have the means to develop it

While everybody was looking up a horse I started on foot the other morning, and had a very pleasant walk to the spot and as I had a claim already taken only two miles from there, I started on an endeavor to trace the course of the quartz, and succeeded in doing so for the distance of some three miles in the meantime clambering over the highest mountains in view, and diving down into the depths of ravines and gulches not [illegible] romantic, all the while upheld in spirit by the occasional view of outcroppings of the identical quartz and at last coming down out of the high places into more moderate acclivities greener hills, more beautiful forest, and better watered gulches, we found ourselves upon our feet, with the quartz cropping out in greater profusion than ever, with the calm and confident opinion that it is a good silver lead our lines have fallen in the pleasantest places of all, and the small amount of 5280 feet our company claims, may yet figure largely in the stock market of Portland But, jesting apart, we have quite an excitement relative to leads found in several different directions, and experiments already had, tend to show the existence of silver Chemistry has become a great study of late hereabouts

Save questions of quartz, we have nothing new or exciting and should our quartz prove valuable, it will tend to create a new branch of business in Portland, after the manner of the San Francisco stock market, and also the city of Auburn may revive under the beneficent influence

Well—we will see But your correspondent has prospected for silver mines before, and has never found paying feet as yet.

WELCOME TO AN OLD FRIEND —The steamer yesterday brought to our city Captain M L Dall formerly commanding the steamer *Columbia* and other ships of the P M S S Co and for many years the only pilot of marine congratulation to the Columbia river He has probably brought more people to this State than any other person, and his return was gladly welcomed by all who knew him. For more than three years past he has been engaged in business at Washoe and has we are glad to learn met the success which industry and merit deserve The Captain hardly knows the present Portland as the port which he visited twice a month from 1852 till 1859 but we hope he finds it no worse than the old one.

News by the Steamer

A Cairo dispatch says it is reported that [illegible] Pillow died last week, at Selma, Alabama

NEW YORK Aug 26 —The *Tribune's* special correspondent from the headquarters of the Army of the Potomac, of the 25th says that the cavalry pickets of the enemy yelled yesterday morning, across the Rappahannock to ours, that Sumter had been taken by us

A cavalry force, under Fitzhugh Lee crossed the Rappahannock yesterday morning, near Corbin's Neck six miles from Fredericksburg but were speedily routed by a brigade of Gen Curtis with a loss of three prisoners (engineer officers) and a number of privates killed and wounded Our loss was slight

The position of the rebel army is now somewhat thus Ewell's force is near Orange Court House A P Hill's near Rapidan Station Longstreet's stretches from United States Ford to Fredericksburg and pickets the Rappahannock now to Port Royal Lee's headquarters are about two miles beyond Orange Court House on the Gordonsville road Rebel prisoners and deserters continue to report disaffection in the rebel army Two deserters from the eighth Georgia report that Gen Stuart has been relieved from his cavalry command and Gen Hood appointed in his stead

The *Herald's* special says that C Edward Lester a clerk in the War Department, was arrested last Monday at Harper's Ferry, with important documents in his possession, intended for the enemy Lester is suspected of having been in communication with the rebels for some time and has doubtless given them much valuable intelligence

[Lester is a *litterateur* of repute, and some years ago figured in a diplomatic position in Europe.—EDS *Alta*]

The guerrillas who infest the Chesapeake and Ohio canal, made their appearance yesterday on the tow path, twenty five miles above Georgetown, but did no damage An active pursuit of the guerrilla bands who infest the country in the vicinity of our lines, is constantly kept up by our cavalry, and more or less of them are daily captured

The steamer *Baltimore* Capt Mitchell, which has arrived from Fortress Monroe, reports no indications of any new rebel batteries on any point on the Potomac The flotilla have not been able to discover any rebels upon the Virginia shore, and the whole country wears the air of desolation

A special despatch to the *World* says the fact that Gen Gilmore has demanded the surrender of Charleston, is believed to be based on his success in reaching the city with his Parrott guns, with which he intended making the experiment as soon as mounted

The captain of the brig *South Boston* reports on the evening of the 22d, in lat 37 and lon 74, picked up a boat belonging to the U S brig *Bainbridge*, which contained a colored man, who stated that on the 21st, during a violent gale, the brig foundered and all on board were lost but himself

The steamer *Constitution* from Hilton Head the 23d, passed Charleston bar at half past 5 o'clock on the afternoon of the same day She reports the bombardment going on with great energy, the firing being very rapid The last report from Morris Island was that Sumter had not responded to our guns for two days

FORTRESS MONROE, Aug 25 —The Augusta *Constitutionalist* dreads lest the Yankees should get a hold on James Island and compel the surrender of that city This is probably the secret of the great efforts the rebels are making to fortify James Island

The Richmond *Whig* of the 20th, has a lachrymose article upon absenteeism in the Confederate army in which it makes a terrible statement that in the battles around Richmond last June twelve months, the number of soldiers on Gen Lee's roll was 120,000 the largest number in the present battles was but 48 000 At the battle of Sharpsburg the number on Gen Lee's roll was 40,000 but the number actually present and in the fight was only 35 000; and that at the battle of Gettysburg the ratio of absentees was about the same proportion The *Whig* despairingly says it is useless to conceal the fact any longer that our cause will ere long, be hopeless if the evil of absenteeism is not arrested The *Whig* says the Yankees are making large hospital accommodations at the Pensacola Navy Yard, and vessels are congregating there indicating that they contemplate an attack on Mobile from that place directly or indirectly The *Whig* thinks the matter should be attended to

The Raleigh (N C) *Standard* of the 11th has a column report of a peace meeting held in that State It continues its defiant tone against the Richmond government

NORFOLK VA, Aug 25 —The Richmond *Examiner* to day, has been received containing Charleston dates to the 24th, which says that last night, at 12 o'clock the enemy opened fire on the city firing fifteen eight inch Parrott shells Non combatants are leaving in a continuous stream

CAIRO Aug 25 —Advices from Steele's expedition to the 18th have been received At that time the [illegible] Arkansas, and had been [illegible] by Gen Davidson's [illegible] The report that the rebels were fortifying at Bayou Metre is confirmed It is reported that Kirby Smith's force was marching from the Red River Country to Little Rock It is stated that with Gen Steele will move forward on [illegible] the energy displayed in all [illegible] his troops will soon be in [illegible] to start a battle at Bayou Metre probably

Col Winslow with his command arrived at Memphis on the 24th having marched from Yazoo City *via* Grenada and the Coldwater In a skirmish with the enemy at Grenada he captured one hundred prisoners

NEW YORK Aug 26 —The following is a letter from Mr Fulton editor of the Baltimore *American* off Charleston, the 22d —

Sumter still flies the rebel flag but its west wall is a mass of ruins Some of our shells explode inside the fort and others pass through the east wall going in one side and coming out the other We have now fine weather and it is expected that the monitors will go in close to Sumter this afternoon — The *Ironsides* and wooden vessels have shelled Forts Wagner and Gregg every day keeping them quiet while the shore batteries are hammering at Sumter Seven deserters were picked up last night by the *Montauk* — They report the rebels preparing to abandon Sumter and blow it up and that they have been taking the guns from it ever since the attack in April which demonstrated their inability to hold it There are not more than six or eight guns in the fort at present the remainder being quakers They also say that the North Carolina troops are anxious to go home and are almost in a state of mutiny They also report that Fort Sumter was extensively breached in April Sumter's flag has been shot away four times and now there is no flag up The rebel batteries on James Island throw shells night and day into our lines but our casualties are not over two per day Admiral Dahlgren's intention is to let the army and naval batteries finish Fort Sumter expecting he has plenty of work for the monitors in taking the interior line of defenses The latter confirms the rebel report that Gen Gilmore has sent a flag of truce to Fort Wagner announcing his intention to commence to shell the city within 48 hours from Friday, requesting Gen Beauregard to remove the women and children The whole of the monitor fleet went up on Friday night for another assault upon Fort Sumter The *Passaic* grounded and so much time was lost in getting her off that the expedition was abandoned The rebels did not discover her position although she was within half a mile of the fort

Drafting in this city proceeds quietly to day in the Fifth, Eighth and Ninth Districts

The steamer *North Star* from Aspinwall the 15th, has arrived The Panama *Star and Herald* of that date says that President General Santa C[illegible]ma was inaugurated at Panama On the 15th a Spanish squadron arrived

NEW YORK, August 26 —The steamer *Persia* from Liverpool the 15th, and Queenstown the 16th, has arrived Little was said concerning American affairs Attention was called to the fact of the Federals pushing forward the construction of powerful sea going Monitors

Wm Cornell Jewett had an interview with the King of the Belgians, who promised to use his influence to induce England to join with France in mediation

The *Morning Post* does not consider it improbable that the French occupation of Mexico may lead to more intimate relations between Napoleon and the Confederates, and create trouble with the Washington Government

ARRIVAL OF THE BROTHER JONATHAN.—The steamer *Brother Jonathan* arrived yesterday at 8 o'clock A M. We are indebted to Wells Fargo & Co's messenger for full files of late papers, and to the Purser for the following—

MEMORANDA.—The steamer *Brother Jonathan*, Samuel J DeWolf commander, left San Francisco August 27th at 11 A M for Portland and Victoria. Crossed the Columbia river bar on the 30th, at [illegible] P M.

PASSENGERS.—Miss Bond, Mrs M C Cosgrove, Mrs C A Wilson daughter and 2 children, Capt W Ball and lady, John Rad, John Wilson, Mr Rus[illegible], A Mason, F Parton, S H Bohn, Mr Werthe[illegible], George Pease, J Frank, P Hornsberger, S Abra[illegible], C J Bernstein, H Hach, M Hans, T W[illegible], S Rosenblatt, Jones Levy, S Mitchell, A Buck[illegible], A Lemon, Miss McLane, Miss N C [illegible], T M Ruggell, T Browning, M Rosenblatt and lady, M Cohn, L Cohn and lady, George Chase, T Haynes, J Smith and lady, Miss D A Harker, Mrs Dewitt, G H Peck, M Fitch, A B Lapham, J Gridlike, lady and 3 children, W McDaniel, Mr Hodgson, Mr Card, [illegible]ight, B S McClaim, H Wagoner, H Troxell, J Barker, R Pomplunt, A J Monroe, J C [illegible], Des Lord, Wells, Fargo & Co's messenger, and 40 in the steerage

RABBI ARRIVED.—The Rev Dr Eckman, a Jewish rabbi, also editor of the San Francisco *Gleaner*, arrived on the steamer yesterday. He was sent for by the Congregation Beth Israel to officiate in their synagogue during the coming Jewish holidays. We understand that the Dr is an eloquent and fluent lecturer both in the English and German languages.

COMING HOME.—Among the passengers who left New York by the steamer of August 3d, were Hon H. W. Eddy and family, of Milwaukie.

TREASURE.—Two hundred and sixty pounds of gold dust arrived per steamer *Julia* last evening.

TO SAIL.—The *Brother Jonathan* leaves for San Francisco, via Victoria, this evening at 3 o'clock.

TO NIGHT, Bulwer's grand and thrilling drama of "Richelieu, or the Conspiracy" will be performed at the Theater.

FOURTH PAGE.—The letter list and a variety of other interesting matter will be found on the fourth page to-day.

DOWN ON ENGLAND.—The Richmond *Whig* has no hopes of help from Great Britain, and abuses the English people almost as bitterly as the Astoria Collector does, who would not sell them bran or beans. There is this difference however—*that* finds fault with the whole nation on account of the prevailing sentiment, while our Collector abuses all, because of the [illegible] of a few sympathizers with rebellion, and also because he thinks it is a cheap way of acquiring a cheap reputation for loyalty. In the course of a long article, after speaking of the hopes of British interference which were once entertained, the *Whig* says:

The proportion of Confederates who could, until very recently, have been made to believe that English animosity to the South was so bitter as to override law, treaty stipulations, justice and humanity, was as one to one million. Two years have produced a vast change. Admiration for England has died out utterly, respect is fast disappearing. With the facts before them, the people of the South are compelled to believe that the Government of Great Britain is hostile to them, and that the people of Great Britain, though aware of this hostility, prefer the Administration of Lord Palmerston to any other.

Storage.—THE FIRE-PROOF STONE WAREHOUSE opposite Umatilla House, is the only building not made of wood at the Dalles where goods are taken on STORAGE. All other houses that take goods on storage are wooden buildings and in *exposed* parts of the town liable to the risk of fire. The subscriber assures his patrons that his charges are but $1 50 per ton per month storage, and although storage in wooden buildings is $1 00 per ton, yet the public cannot fail to perceive the advantages the subscriber possesses over other warehouses of this place.

READ, MOTHERS, READ!—How many a mother has waked up at MIDNIGHT AND FOUND HER CHILD BREATHING HARD, ATTENDED WITH PECULIAR WHISTLING OR BARKING COUGH, which would be relieved by the use of DR WM HALL'S BALSAM, and repay a thousand times the cost by having it once in time of need to give relief to the struggling child? Then why delay in procuring a remedy for such a sudden disease, which is CARRYING OFF THOUSANDS OF OUR CHILDREN EVERY YEAR?

EVERY FAMILY should keep this medicine constantly on hand, for old and young should use it for all affections of the throat and lungs.

DENTAL CARDS.—Certificates received by Dr W KOEHLER from his former places of residence:

This recommendation is due Dr W KOEHLER a Practical Dentist, for his skill, thorough professional attainments, and complete knowledge of the science of Dentistry. I cheerfully recommend Dr Koehler to all who may need or desire his professional services.

J S TITUS, M D

Placerville, May 5th, 1859

I have known Dr KOEHLER as a practicing Dentist in this place for some time past. He is thoroughly versed in his profession, and I would cordially recommend him to those desirous of obtaining the services of an experienced and skillful Dentist.

JOHN COOKE, M D

Placerville, May 5th, 1859

MOKELUMNE HILL, August 30, 1859

Having had occasion to employ several operators to construct a set of artificial teeth for me, but without having derived any benefit from them, I at last consulted Dr W KOEHLER, to whom I gave my case for another trial. He made me a full set of teeth, which I am now wearing with all the comfort and satisfaction desired, and I would recommend him to all in need of the services of a skillful dentist.

W McFADDEN, M D

In Every Age of the World, the professions have been slow to admit the value of new discoveries, or the expediency of adopting them in practice. It is not to the legal profession that we look for reforms in jurisprudence, neither do we find the advocates of medical reform among physicians. Each deprecates what they [illegible] found to innovate upon received opinions and established usage. Hence the opposition which medical men [illegible] exhibit to the use of private remedies, whatever their acknowledged value or great efficiency in the cure of disease. No medicine has ever done more for the relief of human suffering than DR OSGOOD'S INDIA CHOLAGOGUE. The certainty with which it cures Fever and Ague, and eradicates bile from the system is acknowledged by all. Do you prefer a speedy and effectual cure to irregular and unscientific treatment of disease? Try the Cholagogue and the object is accomplished. Then tell your suffering neighbor what it has done for you, that it may do the same for him.

RICHARDS & McCRAKEN

The Latest Use for Petroleum.—An assistant surgeon writing from Gettysburg, says:

Will you allow me, as one alleviation of the horrors of the battle field, to call your attention to the use of coal oil in suppurating wounds. As volunteer assistant, I received permission from the surgeons of the first division of the Fifth Corps, to use it in the most offensive cases. By its manifest utility, and the solicitations of the wounded, I was induced to enlarge its use, until I became satisfied that what cold water is to a wound in its inflamed state, coal oil is to it in its suppurating state, dispelling flies, expelling vermin, sweetening the wound and promoting healthy granulations. It can be used by any assistant of ordinary judgment with perfect safety and to the great comfort of the patient. I have seen two patients whose wounds had been dressed with it, asleep before I was through with the third.

Irish Opinion of our Struggle.—The *Galway American* is the name of an ably edited paper in the city of Galway, Ireland. It is a strong friend of the Union cause, and says in a recent issue:

Let our people at home and abroad understand the question at issue distinctly—the war in America is a contest between Freedom and Slavery, between Republicanism and Monarchy. If the North triumphs, Republicanism will not be confined to America alone; if the South succeeds, a heavy blow will be dealt against the citadel of Freedom—the only citadel from whose battlements her banners float the wind in defiance to the world in arms.

Confiscation at Washington.—The first case of confiscation of property of rebels under the late act of Congress was decided yesterday at Washington. Singularly enough it was that of Mr. Garnett, a son-in-law of Henry A. Wise. The decision was that Garnett was an alien enemy, and in that point of view, 'By the law of nations, his property of every description, is liable to absolute forfeiture and alienation to the use of the government. There is no distinction,' the Judge said, between personal property and real estate, nor did the Constitution, as was supposed, forbid the absolute forfeiture of real estate; but the joint resolution passed by Congress on the same day as the Confiscation act, under the provisions of which this property is sought to be confiscated, was a declaration by them that in the spirit of kindness they would confiscate the real estate of a rebel only during his lifetime. He was bound by that resolution, and would therefore condemn the real estate during the lifetime of the owner, and the personal property absolutely.—*N. Y. Post.*

Democratic Defeats.—Has anybody ever heard of so many defeats of the Democratic party as have occurred since the 4th of July. We have been a voter for upwards of twenty years—but, "by the Eternal," we have never known the Democracy beaten so effectually as Grant, and Meade, and Banks, and the brave soldiers with them have done within the last twenty days! The world has never produced a parallel. Later day Democracy had assumed to be the Constitution and the Government, but it has found its mistake—and a very sad mistake it was for them! It was a mistake, such as will teach traitors a lesson as long as God Almighty permits this earth to revolve. The state host of Jeff. Davis' Democracy here in California should take heed ere 'tis too late—before the vengeance of Heaven and an outraged, liberty-loving people is visited upon their Copper-head.—*Placer Courier.*

The best dressed and best-looking equestrian to be seen among the thousands who frequent a certain fashionable drive, is a well-known professional gambler. A lady who had often noticed and admired the handsome gamester, (and who, like all sensible women, took it for granted that every respectable American has a trade or profession, of some sort,) inquired what the gentleman's occupation might be. "O," said Quilp, "he is an extensive dealer in *paste-board.*" "Lucrative trade?" inquired the lady, with renewed interest. "Why, yes," said Quilp, "rather—at times—but precarious—extremely precarious, Madam."

What it Costs to Make a Noise.—Some statistician has reckoned that 150,000 cannons are on an average fired every twenty-four hours, in salvos, salutes, morning and evening guns, &c., throughout the civilized world; each discharge costs $1 20, consequently $180,000 are daily wasted in this way, and $60,000,000 annually, which go away in smoke, but are raised in substantial taxes.

New Type of Ironclads Ordered Built.—The Navy Department has decided to build another new batch of iron clad vessels of-war, differing in several important respects from all those hitherto constructed in this country. Instead of being propelled by a screw they will have paddle-wheels, and be entirely of iron, with only the necessary wooden backing. These ships will be finished about the same time as the 15 light draught vessels.

A distinguished California divine was asked, after a trip to silver land, "what he thought of the country?" He replied: "There are but three things at Washoe, Sir—big mines, little mines, and whiskey shops; in other words, Ophir holes, gopher holes, and loafer holes."

A lecturer wishing to explain to a little girl the manner in which a lobster casts his shell when he has outgrown it, said, "What do you do when you have outgrown your clothes? You throw them aside, don't you?" "Oh, no!" replied the little one, "*we let out the tucks!*"

As we approve of a youth who has something of the old man in him, so we are pleased with an old man who has something of the youth. He that follows this rule may be old in body, but never old in mind.

If you don't want a woman to go astray, the sooner you provide her with a baby the better. A blue-eyed boy will do more towards keeping Mrs. Gadders' morals sweet than all the prosy sermons that were ever preached.

A Lord Dundreary, of the West End, says the only parting that ever troubled him was the parting of his back hair.

Strong Reasons for Enlisting.—Young man, enlist right off. Air you [illegible] spile your lenny? Let me tell you that the best and prettiest girls in the country are hereafter goin' to be courted by fellows on crutches, who have done great things in battle, and you chaps who stand at home in your country's dark hour won't stand no more chance of getting one of 'em than J. Davis does of going to Heaven in a balloon. Enlist—enlist. In the language of Hamlet's daddy, "list, oh list."—*Artemus Ward.*

A Faithful Priest.—One of the Roman Catholic priests of Newark, (N. J.) told his flock some days since, that if he should at any time hear of the perpetration by an Irishman, of any outrage whatever upon any colored citizen, he should immediately seek out and protect in his own house, the person so assailed.—*N. Y. Evening Post.*

We have no hesitation in stating that, Bitters were freely used among our soldiers, lives might be saved that otherwise will be lost.

We call particular attention to the following and well authenticated cure of one of the nation's whose life, to use his own language, "has been the Bitters."

PHILADELPHIA, August

Messrs Jones & Evans.—Well, gentlemen, land's German Bitters has saved my life. There take in this. It is vouched for by numbers of rades, some of whose names are appended, and fully cognizant of all the circumstances of my case and have been for the last four years, a member man's celebrated battery and under the immediate mand of Captain R. B. Ayres. Through the tendant upon my arduous duties, I was attacked vember last with inflammation of the lungs, and seventy two days in the hospital. This was great debility, heightened by an attack of was then removed from the White House, and city on board the steamer *State of Maine*, from landed on the 28th of June. Since that time I about as low as one could be and still retain a ity. For a week or more I was scarcely able to anything, and if I did force a morsel down, it was ately thrown up again.

I could not even keep a glass of water on my Life could not last under these circumstances ingly, the physicians who had been working though unsuccessfully, to rescue me from the dread Archer, frankly told me they could do no me, and advised me to see a clergyman, and to disposition of my limited funds as best suited acquaintance who visited me at the hospital, Mr. Steinbron, of Sixth below Arch Street, advised forlorn hope, to try your Bitters, and kindly a bottle. From the time I commenced taking gloomy shadow of death receded, and I am God for it, getting better. Though I have taken bottles, I have gained ten pounds, and I feel being permitted to rejoin my wife and daughter, whom I have heard nothing for eighteen months; gentlemen, I am a loyal Virginian, from the Front Royal. To your invaluable Bitters I owe the tainty of life which has taken the place of to your Bitters will I owe the glorious privilege clasping to my bosom those who are dearest to

Very truly yours, ISAAC MA

BUCHTEL & CARDWELL'S

PHOTOGRAPHIC GALLERY,

FIRST STREET IN SHELBY'S BUILDING

THE LATEST USE FOR PETROLEUM.—An assistant surgeon writing from Gettysburg, says:

Will you allow me, as one alleviation of the horrors of the battle field, to call your attention to the use of coal oil in suppurating wounds. As volunteer assistant, I received permission from the surgeons of the first division of the Fifth Corps to use it in the most offensive cases. By its manifest utility, and the solicitations of the wounded, I was induced to enlarge its use until I became satisfied that what cold water is to a wound in its inflamed state, coal oil is to it in its suppurating state—dispelling flies, expelling vermin, sweetening the wound and promoting healthy granulations. It can be used by any assistant of ordinary judgment with perfect safety, and to the great comfort of the patient. I have seen two patients whose wounds had been dressed with it, asleep before I was through with the third.

IRISH OPINION OF OUR STRUGGLE.—The *Galway American* is the name of an ably edited paper in the city of Galway, Ireland. It is a strong friend of the Union cause, and says in a recent issue:

Let our people at home and abroad understand the question at issue distinctly—the war in America is a contest between Freedom and Slavery, between Republicanism and Monarchy. If the North triumphs Republicanism will not be confined to America alone; if the South succeeds, a heavy blow will be dealt against the citadel of Freedom—the only citadel from whose battlements her banners flout the wind in defiance to the world in arms.

CONFISCATION AT WASHINGTON.—The first case of confiscation of property of rebels under the late act of Congress was decided yesterday at Washington. Singularly enough it was that of Dr Garnett, son-in-law of Henry A. Wise. The decision was that Garnett was an alien enemy, and in that point of view by the law of nations his property of every description is liable to absolute forfeiture and alienation to the use of the government. There is no distinction, the Judge said, between personal property and real estate, nor did the Constitution, as was supposed, forbid the absolute forfeiture of real estate, but the joint resolution passed by Congress on the same day as the Confiscation act, under the provisions of which this property is sought to be confiscated, was a declaration by them that in the spirit of kindness they would confiscate the real estate of a rebel only during his lifetime. He was bound by that resolution and would therefore condemn the real estate during the life time of the owner, and the personal property absolutely.—*N. Y. Post.*

DEMOCRATIC DEFEATS.—Has anybody ever heard of so many defeats of the Democratic party as have occurred since the 4th of July. We have been a voter for upwards of twenty years—but, "by the Eternal," we have never known the Democracy beaten so effectually as Grant and Meade, and Banks and the brave soldiers with them have done within the last twenty days! The world has never produced a parallel. Latter day Democracy had assumed to be the Constitution and the Government, but it has found its mistake—and a very sad mistake it was for them! It was a mistake, such as will teach traitors a lesson as long as God Almighty permits this earth to revolve. The strongest of Jeff Davis' Democracy here in California should take heed ere 'tis too late—before the vengeance of Heaven and an outraged, liberty-loving people is visited upon their Copper head.—*Placer Courier.*

The best dressed and best-looking equestrian to be seen among the thousands who frequent a certain fashionable drive, is a well known professional gambler. A lady who had often noticed and admired the handsome gamester, (and who, like all sensible women, took it for granted that every respectable American has a trade or profession of some sort,) inquired what the gentleman's occupation might be. "O," said Quilp, "he is an extensive dealer in *pasteboard*." "Lucrative trade?" inquired the lady, with renewed interest. "Why, yes," said Quilp, "rather—at times—but precarious—extremely precarious, Madam."

WHAT IT COSTS TO MAKE A NOISE.—Some statistician has reckoned that 150,000 cannons are on an average fired every twenty-four hours, in salvos, salutes, morning and evening guns &c. throughout the civilized world; each discharge costs $1 20; consequently $180 000 are daily wasted in this way, and $60,000,000 annually, which go away in smoke, but are raised in substantial taxes.

NEW TYPE OF IRONCLADS ORDERED BUILT.—The Navy Department has decided to build another new batch of iron clad vessels-of-war, differing in several important respects from all those hitherto constructed in this country. Instead of being propelled by a screw they will have paddle wheels, and be entirely of iron, with only the necessary wooden backing. These ships will be finished about the same time as the 15 light draught vessels.

A distinguished California divine was asked, after a trip to silver land, "what he thought of the country?" He replied: "There are but three things at Washoe, Sir—big mines, little mines, and whiskey shops; in other words, Ophir holes, gopher holes, and loafer holes."

A lecturer wishing to explain to a little girl the manner in which a lobster casts his shell when he has outgrown it, said, "What do you do when you have outgrown your clothes? You throw them aside, don't you?" "Oh, no," replied the little one, "*we let out the tucks!*"

As we approve of a youth who has something of the old man in him, so we are pleased with an old man who has something of the youth. He that follows this rule may be old in body, but never old in mind.

If you don't want a woman to go astray, the sooner you provide her with a baby the better. A blue eyed boy will do more towards keeping Mrs Gadders' morals sweet than all the prosy sermons that were ever preached.

A Lord Dundreary, of the West End, says the only parting that ever troubled him was the parting of his back hair.

STRONG REASONS FOR ENLISTING.—Young man, enlist right off. Are you afraid it will spoil your beauty? Let me tell you that the best and prettiest girls in the country are hereafter going to be courted by fellows on crutches who have done great things in battle, and you chaps who stand at home in your country's dark hour will have [illegible] more chance of getting one of them than Jeff Davis does of going to Heaven [illegible]—enlist. In the language of [illegible] "List, oh list."—[illegible]

A FAITHFUL PRIEST.—One of the Roman Catholic priests of Newark (N. J.) told his flock one day since that if he should at any time hear of the perpetration by an Irishman of any outrage whatever upon any colored citizen, he should immediately seek out and protect in his own house the person so assaulted.—*N.
